The daily routine is to be used as a guideline only. Staff shall use their discretion as well as the children's cue's. Transition from one activity to another should flow smoothly with children having the time to finish one activity before moving on to the next activity by singing or playing a game. We want to make transitions as fun as possible. During free play the children are able to choose the center that they would like to play in. Craft is not mandatory. Bathroom / Potty training to be done as needed.
